EDUCATION

Computer Science and Engineering
Himachal Pradesh Technical University
December 2020 - August 2024

TECHNICAL SKILLS

Responsive Web Design | CSS3 | HTML5 | RESTful APIs | MongoDB | Node.js | Express.js | Redux | React | JavaScript | Git

SOFT SKILLS

Attention to Detail | Problem Solving | Adaptability

INTERESTS

- Googling
- Photography
- Reading Tech Articles & Books

CERTIFICATIONS

MERN Stack Development

CodeHelp
Completed a comprehensive certification in MERN Stack Development from CodeHelp, gaining proficiency in building full-stack web applications. The course covered the MongoDB, Express.js, React.js, and Node.js technologies, providing hands-on experience in designing and developing modern, scalable applications. Developed practical skills in creating RESTful APIs, implementing database management with MongoDB, and building dynamic user interfaces with React.js.

Ayushi

Frontend Developer(React)

PROFESSIONAL SUMMARY

Dynamic Frontend Developer skilled in React.js, JavaScript, HTML, and CSS, excelling in creating responsive web applications and optimizing performance. Proficient in integrating frontend components with APIs using state-of-the-art technology, including Generative AI. Quick learner of new tech stacks and committed to enhancing user experiences through collaboration and innovation.

PROJECTS

1. Weather App | |

JavaScript | Node.js | Git | HTML5 | CSS3 | Responsive Web Design | RESTful APIs | Tailwind CSS | Geolocation API | Local Storage

- Developed a web application providing real-time weather updates with a user-friendly interface using JavaScript and RESTful APIs.
- Implemented responsive design for desktops, tablets, and mobiles, ensuring a seamless user experience across all devices.
- Utilized external weather API for up-to-date weather information, demonstrating strong API integration skills.
- Incorporated dynamic weather icons and a search functionality allowing users to retrieve location-based weather information.
- Used responsive web design techniques with Tailwind CSS to create an aesthetically pleasing and functional frontend.

2. Todo App | |

JavaScript | HTML5 | CSS3 | Responsive Web Design | Git | CRUD operation

- Developed an intuitive user interface for a dynamic To-Do application using JavaScript, HTML, and CSS, ensuring a seamless user experience.
- Implemented CRUD operations to allow users to efficiently manage tasks, including adding, editing, deleting, and marking tasks as complete.
- Integrated local storage support for real-time task updates, allowing users to save and retrieve tasks easily.
- Optimized the application for performance, ensuring fast-loading pages with efficient DOM manipulation.
